- THERMAL SAFETY CUT OFF
- KIWI QUALITY PRODUCT 

WHY USE A DAMPCHASER®?

The Dampchaser® is the perfect low cost solution for protecting your clothes shoes and possessions from the damaging effects of mould, mildew and corrosion. Just fit it and forget it and leave the Dampchaser® to do its work. It comes complete with simple mounting hardware, a 1.8 meter power cord and moulded plug. The Dampchaser® is mounted horizontally in the lower half of the cupboard, creating a gentle background warmth that circulates throughout. It reduces allergens and helps eliminate damp and musty odours. Ideal in wardrobes or for creating an airing cupboard. The Dampchaser® has a multitude of uses around the home and work place and can be used in boats, basements, caravans, pianos, electrical switchboards, tool and sporting equipment lockers etc. The 60Watt & 100Watt models have an automatic resetting over temperature safety switch.

Dampchaser® 17Watt
Dimensions 360 x 25 x 25mm

Dampchaser® 60 Watt & 100 Watt
with auto-rest thermal cut off switch
Dimensions 450 X100 X 65mm

CHOOSING THE CORRECT MODEL

The **100 Watt model** is ideal for creating an airing cupboard or for larger double wardrobes of approximately 5 to 6 cubic meters.

The **60 Watt model** is ideal for single or double wardrobes with a cubic capacity of approximately 3 to 4 cubic meters.

The **17 Watt model** is ideal in small cupboards or pianos up to approximately 2 cubic meters.

Please note that the model required is a guide only and may vary due to climatic and environmental conditions as well as the construction methods of the storage areas in question.

Two Years Warranty

Independently tested to comply with AS/NZ standards. Approval # NZ94014/3
